The Arc of Opportunity would like to recognize

John F. Smith

John has served as our construction project manager for the past 5 years. He used his role as construction project manager to educate all subcontractors about the mission of The Arc and inspired them with the message that their work would transform the lives of people supported by The Arc.

The renovation of our Main Street complex continued toward the revitalization of downtown Fitchburg and the construction of three fully accessible group homes has opened up possibilities for 15 individuals with significant needs. He consistently brought projects in on time and under budget.

Thank You John!

The Arc of Opportunity
